Charleston!

Pam Metclafe, physio 2, cuts a caper in the act "A Guy and His Gal" at Varsity Varieties which had a three night stand in Con hall last week playing before sell-out audiences. The Gateway will carry a review of Varieties in Friday's issue.

6,500 Tour University As Records Shattered

By Dolores Shymko

The University of Alberta played host to approximately 6,500 visitors from points as far north as High Prairie and south to Taber, as capacity crowds took in the features of the sixth Annual Varsity Guest Weekend.

Parents, friends and prospective students from distant points throughout Alberta, as well as interested Edmontonians viewed the weekend festivities. Approximately 40 busloads brought students from High Prairie, Brooks, Stettler, Oltario, Taber and Calmar, in response to invitations sent on behalf of the Weekend committee.

Invitations were sent as far north as Fort Resolution, NWT. A record of 85 students made the trip up from Leduc. There were also several visitors from the neighboring provinces of Manitoba and BC.

More than 4,200 visitors registered at the information booths set up in the eight major buildings on Saturday. However, most of the booths stopped registering at about 1 p.m. when the VGW booklets ran out, because of the enormity of the crowd. The registration figure is also swelled by the visitors taking in the four showings of Varsity Varieties, various teas, fraternity open-houses and the home-coming Alumni ball.

The VGW booklets this year were designed to act as a pictorial souvenir of the University, as well as acquaint the visitors with the highlights of the weekend. This is a change from past years. Also, the public was supplied with information regarding the displays, as they toured the campus.

The VGW committee was pleased with the response to the weekend. An increase of enthusiasm was seen in three aspects. There were probably more people from out of town in attendance than ever before. More of the visitors made a point of viewing a greater number of the displays. Also, the students themselves showed more interest as a larger number remained on campus to host their guests.

The bus tours, which started at SUB and took the tourists around the campus to outlying points such as the Agriculture farm, the Ag building and the Ed building, were used to the utmost.

The Nursery was another feature for the convenience of the visitors. The staff of nurses kept the future members of the class of '80 amused as their parents took in VGW highlights.

The annual home-coming Alumni ball honored the class of '32 this year with about 60 members present. Reg Lister, superintendent of residences was the honored guest of the evening.

The neatly lettered and well-marked signs were a great asset in directing the public to the major sights. Also, the sound truck kept people informed on what was happening at the present moment.

The Radio society had several reporters make "on-the-spot" tapes, which will be distributed throughout the province for public relations purposes.

Although the weatherman probably put on the most welcome display of the entire weekend, the public in general seemed very interested in the student exhibits.

The Phys Ed demonstration probably had the largest audience, en masse, as about 1,200 viewers packed the gym for the modern dance, wrestling, judo and athletic exercises display. Also, of great interest to visiting teachers in the audience was the exhibit displaying the advantageous use of playing fields in the schoolground.

The Entomology Department reported they received approximately 2,608 visitors between 9:30 and 5:00. A unique feature of this display was a questionnaire, "How Much Do You Know About Insects?" which would

THE GATEWAY

UNDERGRADUATE NEWSPAPER OF THE UNIVERSITY OF ALBERTA

VOL. XLVII, No. 36 EDMONTON, ALBERTA, TUESDAY, MARCH 5, 1957 FOUR PAGES

Hinman Comes Up With Scheme

Hon. E. W. Hinman, provincial treasurer outlined a scheme for a "university of a new order" at the annual Parliamentary dinner held Thursday night in Athabasca hall. Present at the dinner were members of the Alberta legislature and their student hosts representing various campus organizations.

During his address Mr. Hinman referred to the relationship between economics and the university. He spoke of high school graduates as the raw materials the university is required to train. As products of the university, the students have knowledge in various fields and are ready to be placed on the market for jobs and positions.

Mr. Hinman introduced his conception of a university which would answer the demands of industry. Under this system the industry would place an order for a product of the university and pay the university upon receipt of the product. This reimbursement would be in proportion to the expenditure made by the university when training the product.

Such a scheme would involve different classes of universities for the rich, middle class and poorer citizens. Mr. Hinman suggested that accelerated, standard and slow rates of study be incorporated in the "new order of a university". Canned lectures and brush-up courses were also mentioned.

In proposing the toasts to the university Mr. Hinman expressed the hope that the University of Alberta would be a leader in the "new order of a university".

Dean W. H. Johns, vice-president of the university replying to the toast to the university referred to the lack of parking facilities on the campus. He also suggested that it would be rather pleasant if the university had a checking account with the provincial government which included over-draft privileges.

Phys Ed Funds In '57 Estimates

By John Chittick

Provision of funds for new physical education facilities on the campus was made in the 1957 budget estimates tabled in the legislature Friday by Hon. E. W. Hinman, provincial treasurer.

According to estimates of the public works department $2,170,740 will be provided for construction purposes on the Edmonton campus. This will be used for completion of the Administration building, the Biological Science wing of the Agricultural building, and the starting of new physical education facilities. The exact amounts for each purpose were not available.

In response to the government's proposed plan to enlarge the Calgary branch of the university $1,792,500 has been alloted by the public works department for construction of a new Education building in Calgary.

The budget also showed an estimated expenditure of $2,225,000 as an operational grant to the University of Alberta. This amounts to about $500 per student.

Fry ESS President

Nick Fry, eng 3, was elected President of the Engineering Students society for the 1957-58 term on Friday when about 375 engineers cast their ballots.

Fry, who was ESS treasurer last year defeated Peter Kupin and Don Thurston, both eng 3.

Busy Schedule

Dean Johns Cuts Ribbon To Open VGW

By Barbara Boyden

Varsity Guest Weekend was officially opened at 4:15 p.m. Friday in the University gym by John Chappel, Mr. Malcolm Mcleod, Mr. Dick Chalmers, Mayor William Hawrelak, Dr. Maury Van Vliet and Dean Walter Johns. Guest speakers sat behind a green and gold ribbon which was attached to two posts, representing a "Gateway" between them and the guests.

Mr. Mcleod, chairman of the Board of Governors, remarked that the weekend was an opportunity for parents and prospective students to see and participate in the activities provided by the students. Not only were displays to be observed but also the university students themselves. The seriousness of these students could be seen in the displays; their fun and exuberance in "varieties."

Students, tax-payers, parliament, and professors all have the right to call the university theirs but the Alumni association which includes all these groups really own the university, said Dick Chalmers, Alumni Association vice-president.

Mayor Hawrelak congratulated the students, staff and professors on the effort they were putting into the weekend. He suggested that the guests repeat in their own communities what they had seen and what impressions they gathered during the weekend. People should prepare to take their place as fellow members of society by taking advantage of educational facilities and making use of the knowledge they gain.

Dr. Van Vliet, Director of the School of Physical Education, welcomed the guests and noted how glad the phys ed school was to host the opening ceremonies. As he stated, "this is the last group to have an official gathering in this barn, I hope."

Dean Johns cut the "Gateway" symbolically opening the weekend.

A varied program was provided through the three days. Var-

Students Vote Friday

Students will go to the polls Friday to elect five Council members.

Polling booths will be located in all major building from 9 a.m. to 5 p.m.

"Four Colonels" Stage Production Opens Tomorrow

Opening Wednesday **Love of Four Colonels** will be presented at Studio Theatre through March 16th. Ustinov's comedy is a fantasy interwoven with touches of political satire.

The play is directed by Frank Buekert of the University Drama Division, whose experience includes theatrical work at University of Saskatchewan, Columbia University in New York and the University of Wisconsin.

The cast consists of eight characters including names well known to Edmonton audiences. The Sleeping Beauty is played by Alys Tree who received her dramatic training at the University of Washington and is a talented addition to Edmonton theatrical circles.

Walter Kassa draws from a wealth of experience to play the role of the Wicked Fairy. He has starred in a number of Studio Theatre productions including "Death of a Salesman"; "Dark of the Moon"; "The Tempest" and as Mr. Arcularis, in the play of the same name, received the Best Actor Award at the Provincial Drama Festival.

Mr. Kassa is a graduate of Central School of Speech in London, England. He directed dramatics for five years at Victoria Composite High School before being appointed Co-ordinator of Cultural Activities for Alberta.

Debating Team Loses In Eastern Semi-Final

The McDonald Laurier Trophy, symbolic of Canadian Inter-Varsity debating supremacy, was won by a St. Dunstan's College team from Charlottetown, PEI last Saturday in Ottawa.

The Alberta team of John Paterson, arts 5, and Len Leigh, law 2, lost out in the semi-finals Friday night, in a split decision to Laval University. Members of the winning Maritime team were Donald McDougall and Leo Peddle. They defeated the Laval team of Marcel Simard and Renny Gagné, who debated in French. An interpreter translated the arguments of both sides.

The PEI team edged out Ottawa's St. Patrick's college in a split decision Friday night.

Four major areas competed in the final debates—Ontario, Quebec, The Maritimes, and Western Canada.

Prof. G. R. Davy, coach of the Alberta team, accompanied Paterson and Leigh on their Eastern trip.

IMPORTANT NOTICE TO STUDENTS

Students are reminded that on March 8th, in conjunction with the Students' Union Election, they will be requested to cast a ballot to select a student for The Joseph Dolson Oliver Mothersill Memorial Scholarship. This award is made "to a student selected for outstanding contribution to student life in the University especially through good citizenship and active support of student government."

The final selection is made by a committee which makes its decision with due regard to the ballots cast by the students.

Since this is the only scholarship awarded on the basis of a student vote, students are urged to give the matter serious considerations.

A. D. CAIRNS,
Registrar.

Vice-President

Sonja Gotaas

As official hostess, the vice-president is a student representative to civic and provincial government and business; to students from other universities, and to the faculty and administration of our University.

The vice-president must also assume executive responsibilities. Student Council policy should be an expression of student wishes. If the vice-president has gained experience through student organizations she will be more familiar with students' interest. Only with this experience can she be an adequate representative in student government. She must assist the president in many administrative duties. She must cooperate with other council members to make an efficient and harmonious body. Finally, she must work with university officials again in the interest of the students.

I am willing and sincere in my desires to contribute to student life. I would deem it an honor and a privilege to fulfill the responsibilities of the office, to the best of my ability, for the welfare of the entire student body.

Activities:
Pembina House President—1956-57.
Pembina House committee—1955-57.
Mixed Chorus Secretary—1956-57.
Mixed Chorus—1954-57.
SUB House Committee—1956-57.
Lutheran Student Association Executive—1954-57.
Varsity Varieties—1956.
World University Service Committee—1954-55, 1956-57.
Studio Theatre—1954-55.

The Vice-President has various duties. She serves on the Students Union Council in an executive capacity by supporting and assisting the President in the tasks of administration. She must endeavor to fulfill the interests of the whole student body by the exertion of a maximum effort in council. The Vice-President is the official campus hostess and in this capacity has an excellent opportunity to promote the Alberta tradition of friendliness and hospitality. In particular the

Pat Martland

Vice-President represents the Students Council both on the campus and in the reception of dignitaries and official visitors outside the University.

These duties are of great importance to the successful functioning of the Students' Union Council and demand the time, the energies, the enthusiasm and all the abilities of the person who holds that office.

Should I have the good fortune to be elected, I undertake to give to that office all the energy, ability and the enthusiasm which I possess in order to perform fully the obligations of the Vice-Presidency.

It would be a great privilege to serve you, the students of the University in the office of Vice-President of the Students Union Council.

Activities: I have been in the Political Science club and the Arts and Science club, sing in the University Mixed Chorus, and have taken part in Intramural sports.

Dean Johns From Page 1

sity Varieties proved to be a big attraction and was a sellout for every performance. Most popular numbers seemed to be "Elvis", who rated high squeals, and the calypso groups.

A large group of Alumni met at the Macdonald hotel Friday night for the Homecoming ball. The Mixed Chorus and The Symphony entertained an appreciative audience Saturday afternoon. Guests seemed to prefer the Chorus' number "Three French Folk Songs" and the Symphony's "Plink, Plank, Plunk." One of the visitors, Darilyn Burns, was heard to remark after the concert, "This is one of the nicest things we have done this weekend."

The sports program produced by the Phys Ed faculty entertained a full house. Modern dance techniques shown by the girls in their half hour drill held the mob silent. Visiting students were impressed by the sophisticated university students at the dance in Varsity gym Saturday night. It was a suitable highlight to end the day for the school groups.

Sudden changes in the weather kept the attendance low at the Interdenomination Church service in Con hall. People in the university area seemed to outnumber the university students there.

The Musical club concert in Con hall Sunday afternoon was again rather poorly attended but those at the concert seemed to enjoy it thoroughly.

The Education sponsored tea, and the two teas in the Wauneita lounge, the Wauneita Tea Saturday and the Fraternity sponsored Tea Sunday provided relaxation, quiet and a place for discussions for the guests.

The students in official positions should be commended for their part in organizing the weekend. But in John Nasedkin's words, "The average university student does not realize how much help he can be to the weekend by being friendly, talkative and enthusiastic even though he not and official guide."

General Typing—Phone Joan Couves, 33257.

Typing service, very reasonable. Phone 37305 or call at Suite 3, 8610 - 99th St.

Lost—Set of lecture notes in five courses on a clip board in cafeteria Saturday, between 10:30 and 11:30 a.m. Finder please notify G. H. Neufeld at 893947.

Found—A pair of brown leather gloves. Apply to The Gateway office.

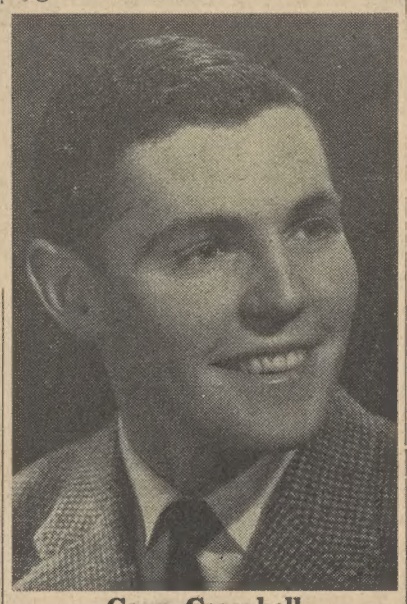

Secretary-Treasurer

The position of Secretary-Treasurer of the Students Union is a new position on Students Council which combines the previously independent jobs of Secretary and Treasurer. As a result the position will require both an administrative and a financial understanding of the operation of the Students Union.

Experience gained through organizational work in student activities and a financial background are the necessary qualifications required to fulfill this executive position.

I am not going to present a point form platform for your consideration as I do not believe a candidate for the position of Sec.-Treas. should place himself in the position of being unable to fulfill well-intended campaign promises which are beyond his power to accomplish.

Rather than that, if I am elected to the position of Sec.-Treas. I will work to the best of my ability to support the President and his Student's Council in the efficient handling of the administrative and fin-

Gary Campbell

ancial operations of your Student's Union. As a member of the executive committee, I will act on behalf of the student body, rather than as an individual in all matters that come before Student's Council. I will do the utmost in my power to keep alive the spirit of student activities and student government and to support the policy of self-government on our campus.

Lastly, as a candidate for the position of Secretary-Treasurer, I sincerely promise, that it will not be a gamble, if you vote for Campbell.

Activities:
First year Commerce representative 1955-56
Commerce representative to Blood Drive 1955-56
Second year Commerce representative 1956-57
Assistant Public Relations Officer 1956-57
Business Manager VGW 1956-57
Co-ordinator of Football Night 1956-57

VGW From Page 1

be returned corrected upon request.

Al Oeming's African Hunting Leopard, "Cheetah" was the main attraction up in the Zoo display, along with the Edmonton Zoological Society's master plan of Laurier Park, the proposed new Edmonton Zoo.

The House Ec fashion show was as well received as the cookie samples that were given out; many people were even turned away.

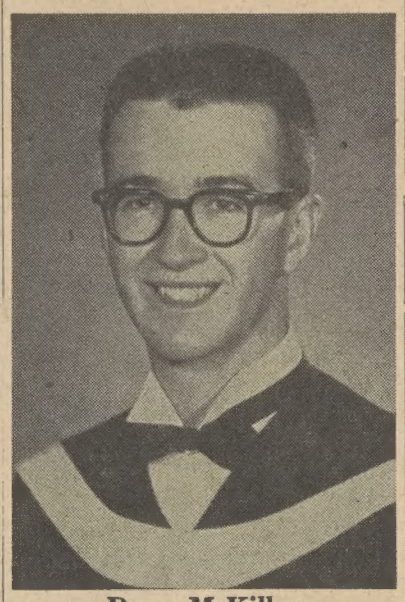

The visitors were given a view of radio in operation as the Amateur Radio Club broadcast from the "ham shack" to a receiver and transmitter in the Electrical Engineering building. Also, in the Ed building the public greatly enjoyed the "Drunkometer" and several "shocking" displays.

The Lie Detector in the Psychology Department challenged numerous guests, as did the various mosaic tests, to test IQ's.

As a candidate for Secretary-Treasurer I cannot make campaign promises as I am in no position to initiate either improvements or reform. But I do have definite ideas as to what is worthwhile in campus improvement, and to these I will pledge my support.

Firstly, the university is in dire need of new recreational facilities. Construction of the new gym should begin as soon as possible.

Recent efforts to revive campus spirit should be maintained and extended. Not only should attendance

Dunc McKillop

increase at hockey and basketball games, but also too few students seem to realize the value of the education received from attendance at meetings o fthe Philosophical society, WUS International Nights, Studio Theatre, Hugill debates, and many other campus activities.

In many colleges football is a major source of campus spirit. Once again we should attempt to revive the Intervarsity Football league.

The Medical Services setup requires revision. Many inequities are present.

As an indication of our campus spirit, I hope that a full vote is obtained in Friday's election.

Activities:
Debating Society—1954-55.
Public Relations Officer and Executive Member of the World University Service Committee—1956-57.
Gateway—1956-57.
Radio Society—1954-55.
Business Manager Cal-Var (Student paper Calgary branch)—1953-54.
Model Parliament—1957.
Intramural sports—1953-57.

ASUS Council Rep Elections Set

Nominations for the position of Arts and Science Students Council Representative must be handed in to either Bruce Jackson, 201 Assiniboia or to the Students Union office on or before Thursday, March 7.

The nomination sheet requires ten signatures of Arts and Science students in addition to the signature of the candidate. Elections will be held Tuesday, March 12, in the rotunda of the Arts building. Only Arts students are eligible to vote.

After a progress report by the ASUS executive at a recent meeting an election of the officers of the organization was held. The 1957-58 executive is: Bob Vaughan, president; Dolores Shymko, treasurer; Jean Kuzio, secretary; Tom McMeekin, committees co-ordinator; Jim Stafford, sports representative; Don Cornborough, public relations officer and Barb Boyden, social convenor.

The Physical Education Undergraduate Society will hold its annual graduation formal on Tuesday, 7:00 p.m. in the Hillcrest Country Club.

Co-Ordinator Of

Ron Ghitter

There are three "Musts" for which it is especially important that the student government elected Friday should strive.

1. They "must" push plans forward for the construction of the new physical education facilities so needed on the campus.

2. They "must" look into, and, if possible suggest remedies for, the alarming fall in the academic reputation of the University.

3. They "must" organize student activities so that the potentially great school spirit which exists on the campus will have a chance to express itself.

The holder of the new post of Co-ordinator of Student Activities will have a chance to fill the gap between the Students Council and the campus clubs and connect them in a closer relationship. Through this position the third "must", that of keeping school spirit revived, can be readily accomplished.

The past year in my positions as an executice on the promotions committee and the Block A club, I gained experience that I feel necessary for anyone contesting this Co-ordinator position. Promotions committee worked hand in hand with many of the campus clubs, and while working with these clubs, I realized the need for and importance of such a position as Co-ordinator of Student Activities.

Let your vote on Friday for Ghitter be a vote for the "three musts" which must be obtained in the ensuing year. A vote for sound student government and a guarantee of a continuous Revive Spirit Weekend not for two days, but for everyday throughout the school year.

Notice Board

Exchanged—A red blanket coat in the Engineering building on Tuesday morning. See R. W. Nichols, room 217, Assiniboia.

Cam Kirby, MLA, will speak Thursday at 12:30 p.m. in Arts 145 on the Conservative policy. All students are welcome to attend.

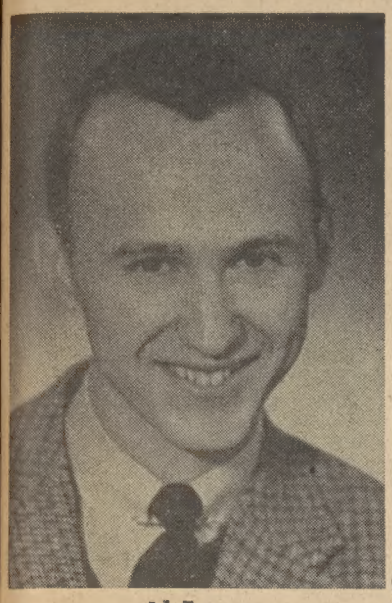

Lost—Lady's wrist watch on 112th street between 83rd Ave and 78th Ave. Thursday night Feb. 28. Phone 74618 evenings.

Lost—A yellow keytab with Ed 280 notes between 87th and 83 Ave. on 112th St. on Friday morning. Please leave at The Gateway office or in the Lost and Found dept. of either Arts or Ed building.

Drama Society will meet at Studio Theatre on Tuesday at 7 p.m. Election for next year's executive will be held and the dress rehearsal of **"The Love of Four Colonels"** will be seen.

Lost—A black wallet containing valuable papers and pictures of personal value. Contact Gloria Cavanagh, Pembina.

Student Activity

Al Lang

Before a candidate can be selected as co-ordinator of student activities, you, the voter, should be informed of the demands of this new position. I feel, that if properly developed, this new office will be the solution to a great many of the present problems on this campus.

In essence, the co-ordinator will be a liaison between the student body and the Student Council, besides being a link between the various clubs on the campus.

Through the co-operation of every student on the campus, especially during registration week, a complete record of the student's interests will be established. This will provide a cross-reference of the campus club and the pertinent interests of any student at the university. This will indeed promote a mutual benefit to the organization and the student.

The person filling the position of co-ordinator should therefore have a genuine interest in the success of various organizations which will promote the welfare of the individual. He should also have the organizational ability and contacts to establish and perfect such a system.

However, such a scheme can be most successfully promoted only if the voter appreciates the significance of the position, and votes accordingly.

Dubasz Says . . .

While I do not think that a presidential candidate should have preconceived, fixed opinions on matters forthcoming, I will express my opinion on a few matters of campus interest.

Student government is concerned mainly with extra curricular activities, and it is toward this end that I would concentrate my efforts.

I would like to see the continuation of the revival of campus spirit carried out this year. This can be achieved, I feel, by encouraging interest in the many campus organizations and clubs. Active clubs make an active campus.

In connection with sports, I feel that new facilities in the way of a new gymnasium are long overdue, and we should press for construction to begin as soon as possible.

For the present, this is election week, the one event in which every student is directly concerned. I hope the competition will be keen, the participation great, and that the best man will win.

Activities:
- First year Ag Rep
- Director of Agricultural Section, VGW
- Director Ag Club Banquet
- Three years in Hugill Debates
- History Club

- Manager U of A Boxing Club

Wauneita President

The words "payuk uche kukeyow-kukeyow-uche payuk" mean a great deal to all women who have at sometime attended the University of Alberta.

The Wauneita society is an organization of long standing having been established in 1910. Since then, its purpose has been to promote friendly understanding among the campus co-eds and to create a spirit of active interest in student affairs.

The various activities of Wauneita society, including Frosh Week, coffee parties, a formal tea and a special initiation ceremony, draw the girls into a common fellowship. The bond is strengthened by subsequent activities which include the annual Wauneita formal, the nurses

Cathy Christou

Macleod club Christmas White gift party and various teas. Each year, with the co-operation of the girls, the society undertakes a charity project.

The friendliness and loyalty of one Wauneita to another is the basis upon which this society rests.

It is my sincere wish that if I am elected as your Wauneita president I will endeavor to maintain the ideals of Wauneita, and with each activity, strive to uphold our motto "Payuk uche kukeyow-kukeyow uche payuk"—Each for all, and all for each.

Activities:
Social Convenor—House Ec club, 1954-55.
Social Director—House Ec club, 1955-56.
Music Director—Radio society, 1956-57.
Mixed Chorus—1956-57.
Household Economics Fashion show, 1954-57.
Varsity Varieties—1954-56.

Shewchuk Says . . .

There are three things to which I pledge myself, if I am elected. They may be termed election promises, but to my mind they are more policies than promises.

The first of these policies is the pledge that I shall continue the tremendous pob initiated by President John Chappel with respect to reviving and stimulating student interest and activity. The Promotions Committee is a step in the right direction but it needs some reorganizing to become more effective.

Secondly, during the past year there was a movement afoot to do away with faculty representatives on Students Council. I opposed that movement when it was first presented and I shall continue, if elected, to oppose such a movement for I feel that the only real avenue of contact with the various divergent faculties is by at least having all faculties represented on Council.

Thirdly, during the next university year much negotiation will have to be carried out with the provincial government if we are ever going to attain a Jubilee gym and stage 2 of SUB. I feel that my experience on Council during the last year, when negotiations ifrst started, will prove of benefit with respect to the successful completion of these negotiations.

Activities:
ASUS Council
Gateway two years
McGoun Intervarsity Debates
President Political Science club
Law Representative on Council
Vice-President Law Club
President Ilarion Club
Model Parliament Cabinet

If I am elected President of the Wauneita Society, I will endeavor:
(1) to encourage the women of the University to participate more actively in Wauneita functions.
(2) To promote a closer relationship between seniors and freshettes, and thus revive the Wauneita spirit.
(3) To voice the needs of University women through a keen interest shown on Student's Council.

With the past experience which I have obtained in this field, I feel capable of carrying out the responsibilities of this position. Mixed Chorus, Varsity Guest Weekend Committee and social convening have contributed in this respect.

I am willing to devote the time and energy necessary to represent you as President of the Wauneita society.

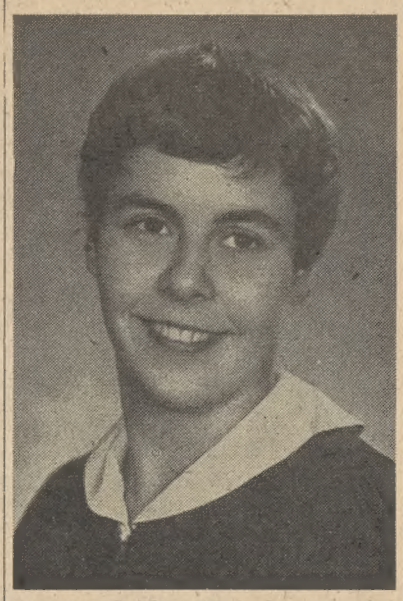

Jeanette Hawrelak

Wauneita Secretary-Treasurer

Wauneita's special job is to welcome freshettes on the campus. As Secretary-Treasurer I would try to help in this endeavor and promote the following:

1. A closer relationship between the Wauneita Council and all members of Wauneita.
2. More co-operation between Wauneita and other campus organizations.

Having worked on Public Relations Committees organizing Varsity Football Night and Varsity Guest Weekend I feel I have gained valuable experience which will help me keep up the standards established by Wauneita.

Cathy Manning

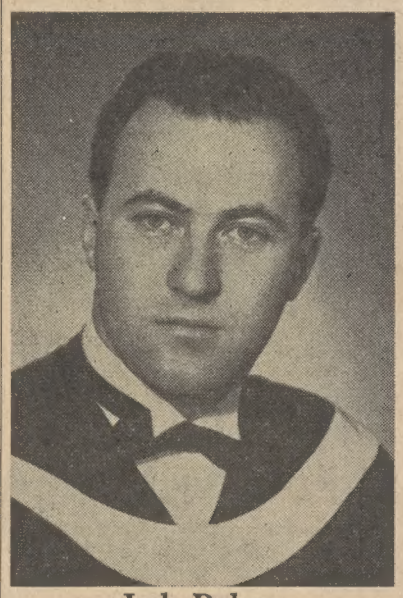

Sylvia Schymizek

The Wauneita society plays an important role on the campus. The many activities of Wauneita members include the welcoming of freshettes to the campus, the collection of gifts at Christmas time for needy children, and acting as hostesses to the visitors on the campus.

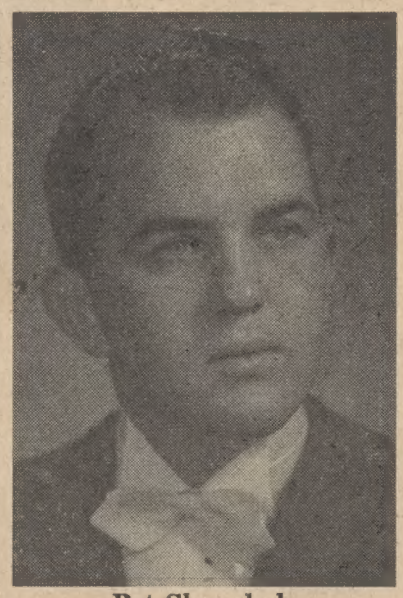

I believe the work done by the Wauneita society is interesting and beneficial. As secretary-treasurer I would endeavor to see the same quality of work continued. I would also attempt to create greater interest among the members and greater organization and co-operation among the executive which I believe is essential to the functioning of such an organization.

REMEMBER, VOTE FRIDAY

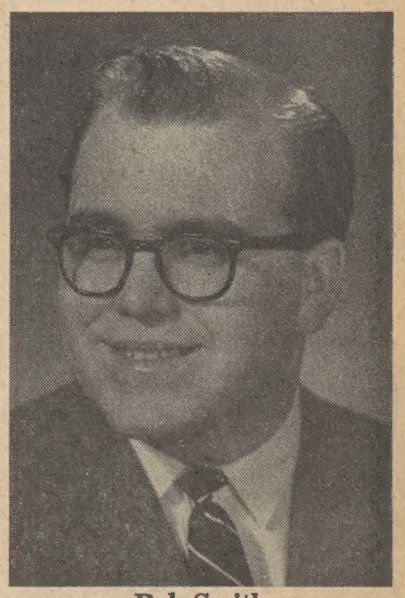

Students Council Presidential Candidates

Jack Dubasz

Pat Shewchuk

Bob Smith

Smith Says . . .

Because of the importance of the decision you will have to make next Friday, I should like to set before you some of the problems with which I feel the new council will have to contend, and which I, if elected to the position of President, will do my best to resolve.

(1) Because of the re-organization of Council this year, a great deal of careful planning must be done by the new council to assure that the new positions are adequately utilized.

(2) We have one of the finest Students' Union buildings on the continent, yet we fail to make sufficient use of it. If elected, I would conduct a survey of student opinion to find out why SUB is not used more, and then I would attempt to put into effect the suggestions made in an effort to increase the use of the building.

(3) The system of granting awards requires drastic revision. I would suggest that the membership of the awards committee should consist of two members of the executive council plus three senior students who, during their year of tenure hold no executive positions in any campus club.

(4) No campaign platform would be complete without some mention of Stage II. If elected, I will do all I can to have ALL of Stage II approved during my term of office.

(5) Spirit is the lifeblood of a university campus. The present council has done an excellent job in increasing the blood pressure in the past year. If elected, I will do my best to continue their work in increasing interest in campus activities, especially in the field of intercollegiate sport.

Alta. Curling Finalists Edged As Sask. Takes Championship

The U of S walked off with WCIAU curling laurels on the weekend at Brandon College. The U of S entry, skipped by Stan Austman, downed Alberta 5-4 in an extra end in the final game to take the curling championship back to Saskatoon.

Alberta's entry, skipped by Al Odynsky, finished in a three way tie for second spot with U of M and Brandon College. All had a 1-2 won-lost record.

Brandon downed Alberta 8-6 in Odynsky's first game. The draw was tied up going home with Brandon skip Wally Jasper gaining two points for the win.

In Alberta's second draw Odynsky crushed Manitoba 10-7 to gain his first taste of victory. Manitoba also lost to Saskatchewan but defeated Brandon College.

Brandon was defeated by the U of S aggregation and lost to U of M for their 1-2 record.

The final game between U of S and U of A was a real thriller. After ten ends of play the score was tied 4-4. Saskatchewan was leading 4-3 going into the tenth end but Odynsky with last rock managed to tie the score. In the extra end Austman counted one for the win and the inter-varsity championship.

Saskatchewan took the title last year also with a ring skipped by the same Stan Austman. The competition was held at Alberta in '56.

Curling for Alberta at Brandon were Al Odynsky, skip; Dale Janowsky, third; Dave Ross, second; and Merv Lloyd, lead.

Curling Foursome

Photo by Jamie Mackeage

Alberta's curling foursome who lost out to Saskatchewan over the weekend are standing (l. to r.) Al Odynsky, Merv Lloyd, kneeling, Dave Ross and Dale Jankowski.

U Of A Breaks Sask. Monoply, Wrestles To Decisive Victory

Last Saturday, at Saskatoon, after a five year wait, the U of A finally won the wrestling championship from the U of S. In winning, the Alberta wrestlers came up with one of the most lop-sided wins in Assault-at-Arms history as they won six of the seven bouts for a final score of 14-3. This even compares favorably with the 10-3 score racked up by the U of S last year.

As a result of their respective wins, Alberta may now claim among its students the following WCIAU wrestling champions:— Featherweight, Cornel Filipchuck; lightweight, Bernie D'Aoust; welterweight, Hardy Davis; middleweight, Herman Dorin; light-heavyweight, Al Boykiw; and heavyweight, Jack Parkinson.

Indications of what was to come were given in the first bout of the night as hard-driving Cornel Filipchuch out-fought Maurice Lepine over the 10-minute time limit to gain the unanimous decision of the three judges.

The second bout brought defending champion Bernie D'Aoust up against the same, but much improved, Herman Seifert whom he defeated last year. After pinning his opponent at 3:05, D'Aoust, the fabulous fatman, was unable to get him into another predicament, and therefore had to content himself with a victory by decision and one pin.

The same thing happened in the next bout as Hardy Davis out-fought Bob Getts for his title. Showing superior conditioning and skill, Davis, in one of the best bouts of the meet, got Getts in several predicaments before finally pinning him at 8:27.

Saskatchewan finally came up with their one win in the light-middleweight class as Elgin Horton, a fourth year man, pinned rookie Floyd Sweet twice to gain the championship as well as the Beaumont Trophy for the best wrestler of the meet. Sweet, whom coach Alex Romaniuk calls the most promising wrestler on the team, fell prey to the experienced Horton at 2:30 and 3:15 of the bout.

As retribution, Calvar's Herman Dorin, a former coach of the team, went out and gained a two pin win over rookie Harry DuRussell at 1:20 and 4:21 of the bout. His fine effort made Dorin a top contender for the Beaumont Trophy.

The light-heavyweight title was won by Al Boykiw by default when his tentative opponent, George Goldak was unable to wrestle due to illness. Boykiw, who was really up for the bout after a strenuous and diligent training program, expressed his dissapointment at the outcome.

The icing to the teams' fine effort was added in the final bout of the evening when Jack Parkinson won by two pins at 3:07 and 4:01 over a rugged Dennie Harris. His very fine effort gained him the runner-up spot for the Beaumont Trophy ahead of teammates Dorin and Davis.

The team is now setting sights on a number of titles in the provincials which are set for March 23 after the Northern Alberta eliminations on the 15th.

Two Games Left

Hockey Dates Not Finalized

Home dates for the U of M Bison-U of A Golden Bear hockey games, that were to have been played Varsity Guest Weekend, are as yet not finalized.

Dr. Don Smith, coach of the Bears, informed The Gateway that U of M plans to play two cancelled games with U of S next weekend. In that case U of M will probably play here the following weekend (March 15, 16).

If arrangements can't be made for the U of S-U of M games next weekend then U of M will journey to U of A instead, for games here March 8 and 9.

At present Alberta has two games left to play, U of S has two, Brandon College has two while U of M has four. The Bears are currently in first place in WCIAU standings with 20 points, U of M has 12, U of S 2 and Brandon 2.

Seven Teams Out, Phys Ed Takes Girl's Broomball

Women's intramural broomball including the bangs and bruises that go with it was run off last week at Varsity rink with Phys Ed 2 taking the title followed by Pembina in second place and Phys Ed 1 in third. Nine teams were entered in the competition but only seven turned out to play.

In the first day's competition Pembina overtook Theta A 1-0, in a game that went into overtime. House Ec won the second game by default but was later defeated by Pembina.

The first game on the second day of action saw Phys Ed 2 defeat Theta B in a rough game that ended with a 1-0 score. Phys E 1 won their first game by default but were knocked out by Phys Ed 2 in the second game. Pembina defeated Tri Delt but were later beat 5-0 by Phys Ed 2.

Lorraine Adams was broomball manager.

'Mural Winners

K-Sigs Upset DU's In B'ball

Kappa Sigma "A" team defeated a strong Delta Upsilon opposition 35-32 in the final game of the intramural basketball schedule Monday night.

The score read 19-12 at the halfway point in favor of the Kappa Sigs. The DU's rallied in the second half and took the lead, however, the Kappa Sigmas scored heavily in the closing minutes to draw ahead before the final whistle.

High scorers for the Kappa Sigs were Bob Law and Jerry Sovka wth 10 points each while John Boyd led DU's with 18 points.

Bears Miffed About Series As Sask. Wins Both Games

The University of Saskatchewan came through with a pair of wins over the University of Alberta in Western Canada Intercollegiate Athletic Union basketball league play. Playing at the Saskatchewan university last week-end the Bears had hoped to win at least one of these games in order to remain in second place in the standings.

Friday nights' game was close right down to the wire, the final score reading 51-49 for the Huskies. Individual scoring is not known at press time for these two games but as usual Al Tollestrup and Don Munro played steady and figured quite prominently in the scoring.

On Saturday the score read 67-52 for the U of S after sixty minutes of play. Al Tollestrup of the Bears sprained his ankle very late in the first half and did not see action for the rest of the evening.

Several technical fouls were called by the Saskatchewan referees during both contests some of which were of the cheap kind, and players from the Bear team are still a bit miffed about the whole series on this account.

These were the last two games of the WCIAU schedule and with the U of S winning both games it puts them into second place with three wins and five loses. The University of Manitoba Bisons won the league quite handily winning seven of the eight games they played. The U of A won two and lost six to finish third place in the standings.

Alberta now faces the University of British Columbia for a two game series here in the near future. This will be the final two games of the Bears 1956-57 basketball year.

Chorus Line—Six lovely girls needed. Four days employment. Phone 33086 or apply in person at 11122-87th Ave tomorrow at 1 p.m.

The Capital Choral Society will present "Romeo and Juliette" on March 5, 7, and 9 and "La Traviata" on March 6 and 8 at Victoria Comp. Tickets are available at Heintzman's.

U Of S Drops U Of A 61-32 Takes Weekend Swim Meet

A highly trained U of S swim team downed Alberta 61 points to 32 to take the men's intervarsity swim meet in Saskatoon over the weekend.

Alberta put up a strong fight but was unable to cope with the well practiced Saskatchewanites who had an opportunity to train five nights each week in preparation for the intervarsity meet.

Howie Boyd led the Alberta crew with first place finishings in the 220 and 440 yard free style races. Boyd also finished second in the 100 yard free style dash.

Tim Myers gained second places in both the compulsory and optional diving events for the green and gold while Phil Dupre placed second in the 60 yard dash.

Norm Hamilton coped second in the 100 yard back stroke event, Padraic Clooney finished second in the 120 yard medley (back stroke, breast stroke, crawl and butterfly breast stroke).

Jack Leavitt was a last minute entry for Alberta in the 100 yard butterfly breast stoke race. U of S took first place.

U of S swept both the four time 60 medley relay and the four times 60 freestyle relay. Saskatchewan also took all three places in the 100 yard breast stroke event.

The Saskatchewan team had their turning in the short 15 yard pool well mastered and easily outdistanced Alberta's swimmers in most events. Prospects should brighten in the intervarsity swimming picture with the coming of a swimming pool to the campus. (Should it be included in building plans in the near future!)

Swimmers making the trip for Alberta were: coach Trevor Regren, Phil Dupre, Jim Logan, Tim Myers, Howard Boyd, Norm Hamilton, Ted Perrin, Jack Leavitt, and Padraic Clooney.

Around The Quad

Cy Ing of the Gold Key society holding the money for Varsity Varieties in a Seagram's bag in his left hand as he shook hands with Premier Manning at the Parliamentary dinner.

Pat Klinck, arts 1, nervous at the prospect of donating blood, answered "1839" when asked the date of her birth.
